

THE PRO-LOG WEB-ENGINE

OPEN PART

Open part of the site is a set of pages.

To navigate use the Navigation panel (3). To come back to Index page press Logo (2). To enter the closed part of the site click Menu button (1).

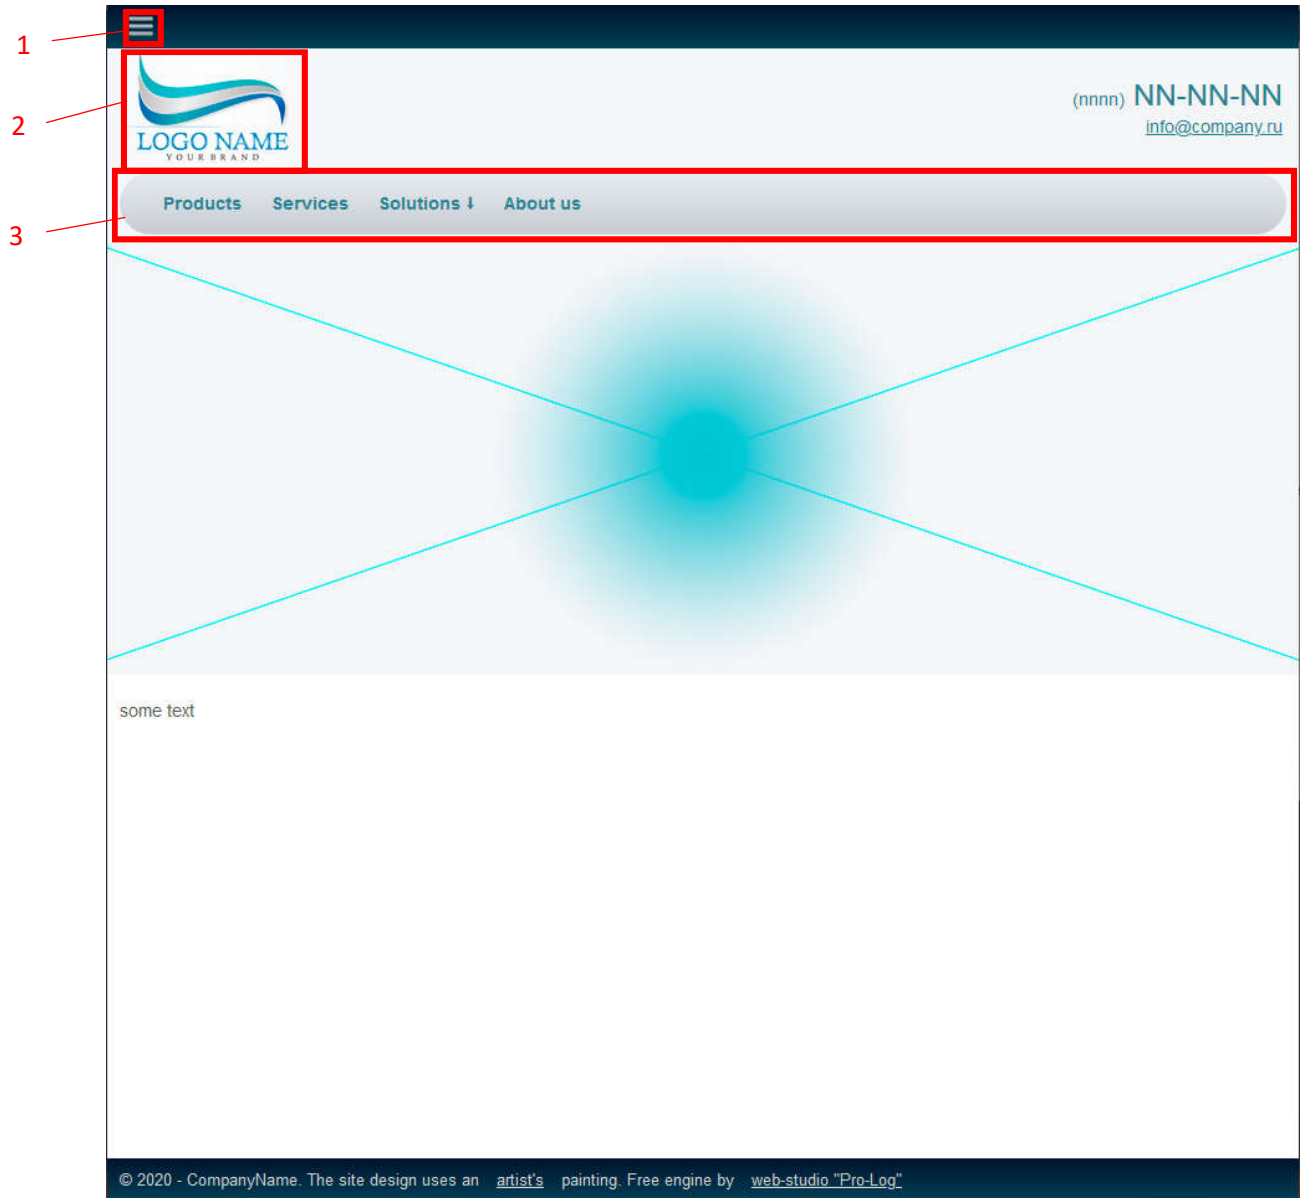

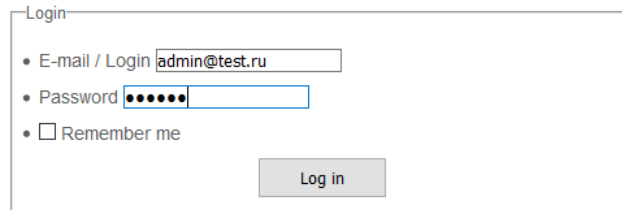

Figure 1 – Index page

CLOSED PART

Log in to enter the closed part of the site.

A screenshot of a login form titled "Login". It contains three input fields: "E-mail / Login" with the value "admin@test.ru", "Password" with masked characters "•••••", and a "Remember me" checkbox which is unchecked. A "Log in" button is located at the bottom right of the form.

Login

- E-mail / Login
- Password
- ☐ Remember me

Figure 2 – Login form

Default passwords are shown in the Table 1.

Login	Password
admin@test.ru	123456
test@test.ru	123456

Table 1 – Default accounts

When logged in, you will see the Administration page (see Figure 3).

A widget (1) in the upper-left corner indicates the name of authenticated user and allows to log out.

There are two sections: “Manage pages” and “Manage users”. To navigate sections use the Navigation panel (2).

Figure 4 – List of the pages

In the section “Manage pages” user can observe properties of pages, select a page to edit or create a new page.

Editing the page

User can edit page properties: title, description and keywords.

“Address” property sets the address of page, for example, <http://mydomen.ru/MyTest2>.

The page can be hidden with the flag “Is Visible”. The page will remain in Administration panel, but disappear from Navigation menu and from site.

The link to the page can be included into Navigation menu with the flag “Is in Menu”. By default, the page is displayed in the first level of menu and has Index page as Parent. To move the link into second level, select another Parent page.

The text of the page can be edited in the section “Content”.

After modifying the page, click button “Save” to admit changes or “Cancel” to abort.

Page removal

The page can be removed from site permanently, to do it click the link “Remove page”. A few conditions should be complied: 1) the page should be hidden and 2) the user should have permissions of administrator.
